PROJECTS

Hollywood Movies Dashboard | *Tableau, Data Visualization*

Sep. 2024

- Designed an interactive Tableau dashboard analyzing profitability, audience scores, and trends in Hollywood movies.
- Enabled dynamic interactivity using filters and tooltips to explore insights by genre, studio, and year.
- Integrated KPIs and visualizations like scatter plots, bar charts, and pie charts for comprehensive analysis.
- Focused on storytelling by creating an aesthetically engaging and user-friendly interface.  [view project](#)

Notable Outgoing Student | *React, Google Sheets API, Node.js, Tableau, AppScript*

July. 2024

- Developed an interactive web application using React, Node.js, and the Google Sheets API for dynamic data management.
- Analyzed student data to identify top performers based on multiple criteria and delivered live results with advanced data visualization using Tableau.
- Resolved issues related to asynchronous tasks and optimized data retrieval for better performance.

EDUCATION

TSSM Bhivrabai Sawant College of Engineering and Research

2025

B.E Computer Science

CGPA: 8.05

Government Polytechnic Pune

2022

Diploma in Information Technology

Percentage: 87.27

Bhairavnath Vidyalyay Kuthbav

2019

HSC

Percentage: 59.23

New English School Khamgav

2017

SSC

Percentage: 91.20

ROLES & CERTIFICATIONS

- Full Stack Java, Conducted by Capgemini and Symboisis Skills and Professional University's Symboisis Digital Academy. June-2024
- Barclay LifeSkills Program, Conducted by GTT foundation at BSCOER. July-2024
- Com'e'it Programming Club — Member (Mar 2022 – Present): Organized quiz contests, designed quizzes, volunteered in leadership roles, and developed resources to enhance members' professional skills.  [Certificates](#)
