⑤ Display dept of the manager/emp.
(SQL)

BITWISE

① Display data of the employees whose records are repeated more than one. (SQL)
② Display employee w/ top 3 highest salary.
③ Update salary by 25% of the emp worked on project 'aws'.
④ what happens if I delete the row from project table having relationship with employee table.

⇒ ORA-02292: integrity constraint violated - child record found

⑤ Final, finally & finalize in Java
⑥ What are the services provided by AWS.

STRATACENT:

① Find name, emp id of the emp w/ 2nd highest salary.

② if batt cost Rs·100 more tha the cost of ball and the cost of ball and bat is 110 Rs what is the cost of bat and ball.

⟹

Cost of bat + ball = 110
Cost of bat = 100 + x
cost of ball = x.

$$110 = (100 + x) + x$$
$$110 = 100 + 2x$$
$$110 - 100 = 2x$$
$$10 = 2x$$
$$\boxed{x = 5}$$

$$= 100 + x$$
$$= 100 + 5$$
$$= 105.$$

∴ The cost of ball is Rs·5
& The cost of bat is Rs 105.

③ Fibbonaci series in Java.

5) NCIISOFT

1) What is a class in Java?
2) What are type of component in React.
3) Difference betw JVM, JRE & JDK.
4) Explain collection Framework in Java.
